

# BICSI Credentialing Recertification Cycle

## MAINTAIN YOUR INVESTMENT

If you fail to complete the recertification process within 3-years, you can still maintain your investment. During the first 90 days after the 3-year period, your credential will be in a grace period allowing you extra time to recertify without penalty.

**After the 90-day grace period, you will be unable to use the credential if you have not fulfilled the recertification requirements.**

Because we know how hard you worked to earn this important designation, your ability to renew your credential will expire one year after your expiration date if your recertification requirements have not been successfully met. At this point, in order to regain this credential, you will need to apply and retake the exam.
